WRENFORD BOROUGH COUNCIL

Statement Guide: Traffic and Use

Document Guide 06 | Issue 2 | Owner: Street Care Office | Review cycle: every twelve months

1. What this guide covers

This guide covers traffic and use: who uses the street and how busy it is - buses, lorries and through traffic, children walking to school, shoppers, older residents, cyclists and dog walkers. It appears in resident descriptions, call notes and inspection notes.

The guide is used by the Street Care Coordinator or Highways Inspector who opens a review - the reviewer in this guide - and by the Highways Inspector who decides it. Whether a requirement is met is a separate question, settled by the report and its defect type's own standard. This guide is about what the documents show: the tools flag only a measurement sentence whose figure differs from the report's or gives a figure the report left blank, as the Report Rules set out, and every other check here is the reviewer's own.

2. How it shows up in a statement

A sentence of this kind usually says one of these:

- buses, lorries or a short cut through the street
- children walking to school, or shoppers on the footway
- older residents walking to the shops or the surgery
- cyclists using the street to avoid the main road
- a quiet street used mostly by residents

3. What the reviewer checks

These are the checks the reviewer makes, in this order:

1 Read each sentence of this kind for who uses the street and how much.
2 Compare what it says with the street's category on the report.
3 Note heavy traffic on a street the report gives as a local road.
4 Note use that the works order's traffic management should allow for.
5 Keep the street's category on the report, which still decides the coordination triggers.

4. Requirements it bears on

Traffic and use bears on no requirement: the street category on the report, not a statement, decides whether the traffic-sensitive street trigger applies.

5. When the statement and the report disagree

When a statement describes a busier street than the report's category, the reviewer notes it for the Highways Inspector and keeps the report's category.

6. What to ask the reporter for

Ask the reporter whether buses or lorries use the street at the defect.

7. Telling it apart

Who uses the street is traffic and use; the danger the defect puts them in is a hazard, which the Hazard guide covers. "Buses and lorries use this road" is traffic and use; "buses swerve round it" is a hazard.
